

DEVELOPMENT ENVIRONMENTS WORKSHEET

DEVELOPMENT ENVIRONMENTS

Development environments allow process creation and user acceptance testing to be conducted in fully segregated environments. Users with the requisite permissions can promote configurations between these environments.

Complete the tasks below.

USER ADMINISTRATION

User administration in Duco is self-service, with the Administrator having the ability to create new accounts, manage password resets, and regulate access.

- ☐ Permission your account to have the capability to both import and export process configurations.

EXPORTING PROCESS CONFIGURATION - SANDBOX

The Sandbox environment is used for process creation and initial configuration. The environment gives users a chance to experiment with new rules and data sets, and train new users, away from production change controls.

- ☐ Create a generic two-sided process in Sandbox using the Duco 101 files.
- ☐ Clone the process twice.
- ☐ Export all three processes into the Testing environment.

IMPORTING PROCESS CONFIGURATION - TESTING

The Testing environment can be used for user acceptance testing of processes promoted from the Sandbox environment. Processes that fulfil requirements can then be promoted to Production, or if issues are discovered, reverted to Sandbox for further work.

- ☐ Approve the import the first processes, using it to create a brand new process in Testing.
- ☐ Reject the import of the second process.
- ☐ Approve the import of the final process, using it to overwrite the configuration of the first process.

ABOUT DUCO

Duco's mission is to make managing data easy. Financial services firms rely on us to reduce costs and dramatically improve efficiency in reconciliation and other data integrity tasks. Our self-service, cloud-based tools empower users to aggregate, normalise and reconcile any type of data on demand. Customers are live in 24 hours, with results in 7 days and tangible business value in 30 days. Headquartered in London, with offices in New York, Luxembourg, Edinburgh, Wroclaw and Singapore, Duco's customers include global banks, brokers, asset managers, exchanges and middle and back office outsourcers.
